

Timing low temperature constant temperature water bath

Timing low temperature constant temperature water bath are widely used in research departments such as petroleum, chemical industry, electronic instrumentation, physics, chemistry, biological engineering, medicine and health, life sciences, light industry food physical testing and chemical analysis, colleges and universities, enterprise quality inspection and production departments, for When the user is working, it provides a field source with controlled cold and heat and a uniform temperature. It can conduct constant temperature experiments or tests on experimental samples or products. It can also be used as a heat source or cold source for direct heating or cooling and auxiliary heating or cooling.

1. Timing low temperature constant temperature water bath Introduction

Imported quality:

Use imported compressors;

The bath is made of 316 stainless steel for one-time molding;

Adopt advanced fuzzy PID temperature control technology;

The display adopts CFC touch screen.

2. Timing low temperature constant temperature water bath Parameter

Technical Parameters	JL-20C	JL-30C
display resolution	0.01 °C	0.01 °C
Control temperature range (°C)	-20~100 °C	-30~100 °C
Stability (°C)	±0.03	±0.03
Cooling capacity@20°C (W)	160	320
Maximum pump flow (L/min)	12	12
Bath volume (L)	6	6
Opening size/depth (mm)	160*160/155	160*160/155

3. Timing low temperature constant temperature water bath Features

- 1: Using advanced fuzzy PID temperature control technology, it can accurately and quickly achieve the constant temperature effect;
- 2: Multiple protection design: overcurrent protection, high and low temperature protection, low liquid level sound and light alarm, can cut off the power in time to prevent dry burning, and ensure the safety of the instrument and laboratory;
- 3: With program temperature control function, meet the requirements of special experiments;
- 4: CFC color screen display;
- 5: Compressor refrigeration is used, and international environmentally friendly refrigerant R134A is used;
- 6: Imported silent water pump provides powerful circulating power;
- 7: 316 stainless steel sink, with high-strength anti-corrosion and anti-rust ability.

4. Supporting equipment -Timing low temperature constant temperature water bath

Refractometer; Fermentation tank; Polarimeter; Electrophoresis; Photometer; Chromatographic column; Viscometer; Rotary evaporator; Rheometer; Small fermentation device; ICP ICP-MS; Mass spectrometer, etc.

5. Product Qualification

Jiahang Product has obtained CE certification, TART certification, ISO quality management system certification, more than 10 software copyrights and multiple patents to ensure that each instrument has stable performance and excellent quality.

6. Deliver,Shipping And Serving

We have a top R&D team returned from Europe and America, cooperate with our superb manufacturing team, professional sales team and dedicated service team, working together to provide customers with high-tech, high-quality products and efficient, convenient, Comprehensive pre-sales and after-sales professional services.

7. FAQ

How many years have your company made Timing low temperature constant temperature water bath ?

22 years of scientific instrument manufacturer, laboratory solution provider!

Which certificate do you have for your products?

Jiahang has obtained CE certification, TART certification, ISO quality management system certification, more than 10 software copyrights and multiple patents to ensure that each instrument has stable performance and excellent quality.

Will you will attend the fair to show your products?

Yes, Every year we will participate in some internationally renowned exhibitions to launch our new products, such as Arablab, PICCTON, Analytica Russia, Lab Africa, Analytica Germany, Analytica Latin America and so on,we are looking forward to your visit.

How about your company's R&D strength

Possess strong R&D technical capabilities (a R&D team of more than 20 people, with an average degree of doctorate degree, graduated from well-known universities at home and abroad, with an average work experience of 8 years), able to deal with and solve product-related technical problems

If OEM is acceptable?

Provide OEM customization service, product built-in software has autonomy, can customize development settings

Are you a trading company or a manufacturer?

100% manufacturer, no middlemen and distributors make the price difference, the price of the source factory is very advantageous; Jiahang is headquartered in Shanghai, China, has 15 service outlets and 2 production plants in China, and has sales in more than 10 countries overseas proxy.

How about your delivery time?

"Generally, it will take 7 to 15 working days after receiving your advance payment. Depend on the quantity."

Which payment can be acceptable ?

We could accept the payment by L/C, TF, Paypal , Western Union,etc.

Service

We could provide Online instruction ; Real-time support by video-ca or voice-chat.

Any customer who cooperates for the first time promises to provide a production cost price trial opportunity to solve your worries about product quality problems.

Provide official product quality assurance documents that comply with legal benefits to escort you with worry-free after-sales service.
